How it works

1

Choose between sleep sounds or study sounds

Sleep

Study

2

Choose hours that sound plays

Hours

3

Select from list of sounds with descriptions on how they help your focus or sleep

Four horizontal bars representing a list of sound options.

4

Audio file plays start to end of selected duration followed by an alert “How was your sleep” or “How was your study”

A progress bar with a grey fill and rounded ends.
